

## NIOSH Malaysia

### VISION

The leading centre of excellence in OSH in Malaysia

### MISSION

The preferred partner in enhancing OSH

### FUNCTIONS & OBJECTIVES:

NIOSH function is to provide training, consultation services, disseminate information and conduct research in the field of occupational safety and health. As stated in the memorandum and Articles of Association, NIOSH aims to:

- Contribute towards efforts in upgrading OSH through developing curriculum and training programs for workers and employees, employers and those responsible for implementing OSH at the workplace.
- Assist industries, commerce and others to solve problems relating to OSH
- Assist those who are responsible for OSH with the latest information in the field of OSH, both locally and overseas.
- Conduct short term and long term research in OSH related areas that will benefit and bring advantages to the country.
- Disseminate information on research findings and to become the centre of reference in the field of OSH.

Kuching, Sarawak**

**'CEP for Registered SHO'**

**" Your Preferred Partner in Enhancing OSH "**

# GLOBAL STRATEGY ON OSH SEMINAR

## INTRODUCTION

Nowadays, occupational safety and health practice becomes one of the important key in working environment. This practice is needed to protect and maintain worker's safety and health as well as improving work conditions and workplace. Unfortunately, thousands of work related to accidents and diseases arise over the years due to lack of awareness and understanding of the concepts of hazards and how they may be prevented or controlled. Changes and action needs to be taken and accelerated nationally and internationally to develop safety and health awareness in working environment. In view of this, this safety and health seminar is held to promote a concept of safety and health culture as well as to manage occupational safety and health in working environment.
